PROFILE

27 years of IT leadership at global scale — from co-founding a technology consultancy in 1999 to CTO and Director-level appointments at SunHotels, WebBeds, and Sembo. Currently serving as Head of Product & IT at Norval Intelligence AB, an early-stage AI startup, while continuing to advise independently and ship production-grade applications using AI-augmented development.

EXPERIENCE

Head of Product & IT Compliance

2026 – Present

[Norval Intelligence AB](#)

Palma de Mallorca

- Own the product roadmap, backlog, and functional acceptance for an AI-driven behaviour change platform targeting enterprise and public-sector clients.
- Built the GDPR compliance framework from the ground up — data mapping, processing agreements, Article 30 registry, incident procedures — to support regulated enterprise pilots.
- Established IT infrastructure, tooling policy, and release and security strategy as the company scales from MVP to production.

Freelance IT Consultant

2023 – Present

[Independent — alongside Norval Intelligence](#)

Palma de Mallorca

- Defined AI adoption roadmaps for client organisations, translating strategic intent into implemented initiatives — identifying where AI creates genuine business value and advising against projects that won't pay back.
- Delivered IT strategy and architecture reviews for leadership teams, producing decision documents that moved from advisory into build decisions and implementation.
- Shipped ten production-grade applications across 2025–2026 in consumer (sport, music, education), B2B (logistics dispatch, MES), and utility (offline navigation, multi-stream video) domains using AI-augmented development.

Director of Engineering

2022 – 2023

[Sembo — Stena Line Travel Group AB](#)

Palma de Mallorca

- Grew the engineering team from 20 to over 40 engineers to support a leading online B2C trip planning platform.
- Established a new development centre in Poland, adding to existing bases in Sweden and Spain.
- Led shift to product-driven development culture, boosting agility and team empowerment.

Director of Product

2018 – 2021

[WebBeds \(Webjet Group\)](#)

Palma de Mallorca

- Drove post-acquisition integration of DOTW, expanding the B2B accommodation portfolio.
- Led platform consolidation across the group, improving cohesion and operational efficiency.
- Accelerated consolidation during the pandemic to ensure infrastructure resilience and scalability.

Chief Technology Officer

2017 – 2018

[WebBeds \(Webjet Group\)](#)

Palma de Mallorca

- Unified IT operations across three acquisitions — SunHotels, Lots of Hotels, JacTravel — consolidating 80+ engineers into a single technology framework over two years, enabling the platform consolidation that followed under the Webjet group.

Chief Technology Officer

2013 – 2017

[SunHotels](#)

Palma de Mallorca

- Founded the company's first internal IT department, eliminating dependency on external outsourcing and establishing end-to-end infrastructure ownership.

Head of Sales and Support

2004 – 2007

[Trigentic AB \(alongside Empir AB\)](#)

Uddevalla

- Key contributor to the commercial success of EmpirBus, which led to the product's acquisition by Garmin.

Co-Founder & Director of Development / KAM

Empir AB

1999 – 2013

Uddevalla · Palma

- Co-founded and grew Empir AB from zero to a recognised technology consultancy delivering software solutions and managed services.

SKILLS & PROFILE

Leadership Competencies

- Strategic IT Vision & Roadmapping
- Agile & Product-Led Development
- International Team Building
- M&A Technology Integration
- Operational Efficiency at Scale

Technical Stack

TypeScript · React · Supabase · Vite · Tailwind · PWA
Mapbox · Python · C# · Elasticsearch · Kibana
Edge Functions · Playwright · Git · GitHub

Languages

Swedish — Native
English — Bilingual
Spanish — Elementary

Education

Östrabo Gymnasium
Computer Science · 1994–1995 · Uddevalla, Sweden

Interests

Padel · Boating · Travel

SELECTED PROJECTS — 2025–2026

Padel Boys

Full padel club management — scheduling, drag-drop court assignment, Elo ranking, results, photos, push notifications, admin suite.

[React](#) · [Supabase](#) · [PWA](#) · [Edge Functions](#)

TuneTrail

Multiplayer music timeline game. Supabase Realtime chosen for low-latency presence and game-state sync — enabling sudden-death mechanics without a custom WebSocket layer. Live at [tunetrail.app](#).

[React](#) · [Supabase Realtime](#) · [iTunes API](#)

Paddla.app

Offline-first kayaking navigation PWA — architecture chosen to handle poor mobile coverage in coastal waters. Mapbox GL with Cloudflare edge delivery; community POIs and water routing.

[React](#) · [Mapbox GL](#) · [Supabase](#) · [Cloudflare](#)

CrestQuest

Multiplayer football club logo quiz with lobby system, time-based scoring, and European club database.

[React](#) · [Supabase](#) · [Zustand](#)

Los Players

Golf group tracker — scores, season standings, economy ledger, per-round photo galleries.

[React](#) · [Supabase](#) · [Tailwind](#)

Stella's Engelska

Swedish children's English learning app with vocabulary drills, progress tracking, and push reminders.

[React](#) · [Supabase](#) · [PWA](#) · [Push API](#)

Astarea

Logistics dispatch system — vehicle registry, job dispatch, real-time sales reports, role-based auth.

[React](#) · [Supabase](#) · [Edge Functions](#)

Sport Splitter

Windows desktop utility for multi-stream sports viewing. Splits windows up to 3×3. Installer included.

[C#](#) · [WinForms](#) · [Inno Setup](#)

Industry Partner MES

Elasticsearch provisioner for an industry partner MES — 137 indexes chosen over a relational store for high-volume time-series production data. Ships Kibana views and 120 days of historic demo data.

[Python](#) · [Elasticsearch](#) · [Kibana](#)

Skandiman

Marketing website for a Scandinavian services company — services showcase, gallery, contact.

[React](#) · [Tailwind](#) · [Vite](#)
